

Yaadein Frames – Meta Ads Lead Generation Campaign

Detailed Project Report

1. Project Overview

This project demonstrates the practical execution of a Meta Ads Lead Generation campaign for Yaadein Frames, a frame manufacturing business. The campaign was created to promote the business and its frame products through Facebook and Instagram and to generate potential customer enquiries.

2. Project Objectives

- Generate potential customer leads for Yaadein Frames.
- Promote Yaadein Frames and its frame products through Meta platforms.
- Reach relevant audiences using audience targeting.
- Manage a real advertising budget and monitor campaign spending.
- Measure campaign performance using results, cost per result, impressions and reach.

3. Campaign Details

Metric	Details
Campaign Name	Yaadein Frames – Lead Generation
Campaign Objective	Lead Generation
Ad Set	Yaadein Frames – Frame Business Ad
Daily Budget	■100
Campaign Duration	1 October 2026 – 5 October 2026
Amount Spent	■394.45
Results	23
Cost per Result	■17.15
Impressions	4,359
Reach	3,073

4. Campaign Setup and Execution

- A Lead Generation campaign was created in Meta Ads Manager.
- The campaign was configured for Yaadein Frames with the objective of generating potential customer enquiries.
- The ad set was identified as “Yaadein Frames – Frame Business Ad”.
- A daily budget of ■100 was assigned to control advertising expenditure.
- The campaign was monitored in Meta Ads Manager using delivery and performance metrics.

5. Campaign Performance Analysis

During the campaign period from 1 October 2026 to 5 October 2026, the campaign generated 23 results. The total amount spent was ■394.45 against a daily budget of ■100. The campaign recorded 4,359 impressions and reached 3,073 people. The reported cost per result was ■17.15.

These results provide practical insight into how a small-budget Meta advertising campaign can be monitored and evaluated. The campaign metrics help assess reach, delivery and the cost associated with generating results.

6. Performance Summary

- Results: 23
- Amount Spent: ■394.45
- Cost per Result: ■17.15
- Impressions: 4,359
- Reach: 3,073
- Daily Budget: ■100

7. Skills Applied

- Meta Ads Manager
- Lead Generation Campaign Setup
- Campaign and Ad Set Management
- Audience Targeting
- Ad Creative Management
- Budget Management
- Campaign Performance Analysis
- Digital Marketing
- Social Media Marketing

8. Key Learnings

- How to create and configure a Lead Generation campaign in Meta Ads Manager.
- How to set and manage a daily advertising budget.
- How to manage campaign and ad set settings.
- How to target relevant audiences for a business campaign.
- How to monitor campaign delivery and performance.
- How to interpret results, reach and impressions.
- How to evaluate cost per result.
- How to use Meta Ads Manager for practical business marketing.

9. Project Evidence

Screenshots of the Meta Ads Manager campaign setup and campaign performance are maintained in the associated GitHub repository. The evidence includes the campaign name, ad set, budget, amount spent, results, cost per result, impressions and reach.

10. Conclusion

The Yaadein Frames Meta Ads campaign provided practical experience in planning, setting up, managing and analysing a real digital advertising campaign. The project demonstrated how Meta Ads can be used for lead generation and how campaign metrics can be used to evaluate advertising performance. It also strengthened practical skills in digital marketing, social media advertising, budget management and performance analysis.
